CHLORODYNE. DR. J. COLLIS BROWNE'S CHLORODYNE TRADE ASSESSMENT -- VANCOUVER ISLAND. B.C.

"Dr. J. Collis Browne's Chlorodyne—Extract from the tienerat moral of coath, loodon, at o its efficacy in Cholera—So strengly are we convived to the efficacy in the tieneration of the tieneration of the remedy, that we can observed the optical way in the necessity of adopting the indicase—2. From A. Must gonery, lest,, late Inspector of It-spitals, Bombay—Chlorodyne is a most valuable remedy in Nernalis, Asthma and Dysentery. Tolt Hairly owe my restoration to health after eighteen months' evere suffering and when all other remedies had failed."

Dr. J. Collis | Browne's Chlorodyne, --Caunon-None genetic without the words Dr. J. Collis Browne's Chlorodyne' on the Government Stamp. Overwhelming medical testimeny accompanies each bottle. Sole Manufacturer J. 1. Davenport, 33 Great Russell Street, Bloomsbury Loudon. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, is 1½; 28 bd; 48 dd and 11s.

Dr J. Collis Browne's Chlorodyne—Vice-Chan cellor Sir W Page Wood scated publicly in court that Dr J Collis Browne was undoubtedly the inventor of Chloro-dyne, that the whole story of the defendant Freeman was calberately natrue, and he regretted to say it had been worn to. See the Times. July 30th, 1864. Dr J. Collis Browne's Chlorodyne—The Righton Earl Aussell communicated to the Coinge of Physicians and J. Davenpot, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. See Lawker, Pec. 31, 1863.

Dr.J Collis Browne's Chlorodyno—Extract from MERICALTIMES, Jan 12th, 1866— Is proscribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place. Dr.J Collis Browne's Chlorodyne is the best an most certain remedy in Coughs, Cods, Asthma, Con sumption, Neuragia, Rheumatism, &c.

FARNAN'S

An Effectual and Speedy Remedy GOUT. RHEUMATISM. SCIATICA.

Farnan's Specific bas stood the test of years, and its beneficial inflaence, as well as the extraordinary rapidity with which it acts on the system and removes pain and the cuse of pain—that is to say, the condition of the blood and stomach which produces the affliction—can be witnessed to by thousands. The cure is as comprise as it is RATID, and, strengthened by the testimonies of a large body of patients who have received almost IN-STANTANGUIS relief after all other remedies have failed, the proprietor has the utmest confidence in offering it to the notice of the public. To the constitution it is narmless; to the fluids on the human frame it adds a healthy impetus; to the system generally it is invigorating to a degree unparallelica, and both sexes may take it to equal advantage. A dose taken about once a month, operates most electually in preventing a return of the compilaint.

#### The Charge on Farmer's Boats.

A lew days ago a correspondent writing over the signature of " Lex," called attention to the demand made, upon a farmer by the Customs' authorities for the payment of \$5 as license for an open boat called the "Speedwell," which had entered this harbor with produce belonging to the owner of the craft. "Lex" stated that the demand was for \$5 per month or \$30 half-yearly. This, we have since learned, was an error on the part of the writer. The demand was for \$5 for six months, which was paid and a licence issued that will hold good for the half year. Connected with this matter, however, there arises the question whether the Customs' authorities have a legal right to defarmer's produce to a market. The sche ule of the Amended Harbor Dass Ast provides for boats of the "Sp ceuweh's" class on the following

" Ferany boat, plying or let for hire, 12 feet or over, \$5 for 6 months."

"Lex" says the "Speedwell" was freighted with goods belonging to the owner. Now, if such were the case, it is clear that the boat was neither "plying" nor "let for hire," and, consequently, it did not come within the demand a license for her. If the principle of charging farmer's boats the harbor of Victoria is admitted. there is nothing to prevent the system being extended to farmer's wagons. The principle would be the same in either case. If the "Speedwell" had freight or produce on board belonging to other parties, or is in the habit of carrying cargoes of that description, she certainly is liable to pay the license; but if she was merely ply. ing for the benefit of her owners, the charge has been illegally collected tion is an important one to the nuland along the shores of the Island whence there is no communica. tion by land with a market, and who have to depend wholly upon water communication to bring their produce

Insecurity of the Life and Property in New York. A news correspondent, March 29th, writes as follows: Time was when residents of the old cities, on the Atlantic side, were filled with horror at the thought of visiting California on account of the insecurity of life and property; and those who set at defiance the general impression of California lawlessness and persisted in taking a chance in the exhibition of the terrible elephant, were objects of tearful prayers and distressing farewell demonstrations. But if Cali-fornia, even in the worst period of her history was a bad country to live in, what shall we say of New York and vicinity now-a-days. York and adjacent towns are unsafe for pedestrians after nightfall. Thieves and morderers crowd the cmnibus cars, and passengers are waylaid, beaten, and robbed in the cars, and the city papers charge that the car conductors are in league with the the car conductors are in league with the ruffians. On some of the lines of the street cars timid persons will not ride at night. The threves are usually in strong force, and the resisting victim stands no sort of chance. If he make too much noise he is beaten sense less, if not murdered outright. Only last night a man was robbed in a car and at-tempted to follow the thieves and raise an alarm : but the car conductor refused to stop until the ruffians had made a good ofling This sort of thing happens nightly. Some-times half a dozen cases are reported at the police station within a lew hours; but they are not all reported at the time of the occrence. Last night a lady, Mrs Mary Thompson, residing in Brooklyn, was attacked in a thickly-populated neighborhood by three robbers. The account says: One of them caught her by the throat and threaten ed that it she made a noise he would blow her brains out. The other two forced open the her brains out. The other two forces open the front of her dress and took her pocketbook, containing \$140. They also took the pattern of a new stik dress and a pair of gatters which she had purchased in New York during the afternoon. It appears the lady fell senseless on the sidewalk, and was found there by some gentlemen and taken to a police, attaion, where she revived under there by some gentlemen and taken to a police station, where she revived under medical treatment. This outrage occurred at 8 o'clock in the evening just after dark. [We learn by telegraph that the lady has since died.] This incident may sound strangely to residents of San Francisco, where a school girl unattended may walk in safety from South Park to Meigg's wharf at all hours. But it would require too much all hours. But it would require too much space to mention the shocking incidents of a week in New York and its suburbs. The police reporters are overtasked in attempting police reporters are overtasted in attempting to note them all. New York city employs four Coroners, who have their hands full, and from very recent developments it would appear that they are not always strict in their investigations as to the cause of death in cases which should require the most searching examinations. A case in point is that of a woman who was murdered a few days ago by abortionists, but whose remains were permitted to be prepared for burial under a Coroner's certificate that she died

from natural causes. In this particular case the body was carried for sepulchre into another State, where a new inquest was held resulting in a discovery of the lacts. It may

safely be assumed that of the many unknown

The New York police are immense, numerically considered, but like the firemen of the city, they lack education. They are brave enough, as witness the grand charge they made on the rioters on St. Patrick's day;

FARNAN'S

GOUT SPECIFIC!

An Effectual and Speedy Remedy

GOUT, RHEUMATISM, SCIATICA,

LUMBAGO & NEURALGIA

Furnan's Specific bas stood the test of years, and its beneficial influence, as well as the extraordinary rapidity with which it acts on the system and removes pain and the cuse of pain—that is to say, the condition of the blood and stomach which produced the affliction—can be witnessed to by thousands. The cure is as computer as it is kapin, and, strengthened by the testimonies of a large body of patients who have received almost 1N-STANTANEOUS relief after all other remedies have sailed, the proprietor has the utmest confidence in offering it to the notice of the public. To the constitution it is harmless; to the fluids of the human frame it adds a healthy impetus; to the system generally it is invigorating to a degree unparalleled, and both sexes may take it to equal advantage. A dose taken about once a month, operates most effectually in preventing a return of the complaint.

Prepared by the proprietor, W. FARNAN, 12 Tavistock street, Govent Garden, London.

THE WRECK OF THE " W. B. SCRANTON' The Okanagan arrived last night from Astoria, and Purser Hoyt placed us in possession of the following account of the wreck of the bark W. B. Scranton, Captain Paul Corno, from San Francisco for this port. On Sunday morning she attempted to cross the bar at the mouth of the Columbia, and while on the passage, the wind failed her and she drifted helplessly on to the spit near where the Industry was wrecked some years ago. She struck about 10 o'clock, a. m., the weather being entirely calm. The captain's wife and another lady, a passenger, and all the crew, numbering a total of fourteen persons, were taken off during the day and evening in a surf boat, the last arrival from the vessel being at 8 o'clock, p. m. The Scranton had on board 810 tons of merchandise for this city, being mostly agricultural goods to Knapp, Burrell & Co., and lime and salt to McCracken, Merrill & Co. Among the goods to Knapp, Burrell & Co., were several threshers on the bark's deck. The vessel was insured for only \$9,000. On Monday evening when the Okanagan reached Astoria the Scranton was visible and believed not to be broken, but during Monday night the wind blew some, and yesterday morning nothing could be seen of her from Astoria. Capt Corno chartered the schooner Ellen and started down yesterday morning to reconnoitre and ascertain if anything could be saved. Everybody else who could ob-

scene of the wreck-Oregonian, May 8th. COMPASSES IN IRON SHIPS—It is a wel known fact that all the methods for preventing the deviation of compasses in iron ships are more or less unsatisfactory. The latest scheme in the field is that proposed by Mr Evan Hopkins, which was first brought before the public, in a somewhat imperfect form, however, in the spring of last year. The principal cause of the deviation in iron ships is known to be, says the Builder, the polarity which the hull acquires whilst being built. It becomes, in fact, a large bar magnet, the magnetism being induced by the action of the earth, and rendered permanent by the hammering which the hull receives curing building. In order to get rid of this polarity, Mr Hopkins proposes to prepar powerful electro magnets, which are to oe swung from the bulwarks, and slidden rapidly along the plates towards the stern, the magnet being lowered at every repetition of the traverse motion, so as to pass over and depolarize a fresh line of plates. It will be seen that the process is nothing more than an adaptation on a large scale of the ordinary method of demagnetising a magnetic bar. Mr Hopkins has taken out a patent for his invention, but the details, as given in his final specification, filed a few days back, do not appear to give much promise of success. The idea is, however, a bold one,

FROM Q C. ISLAND-The schooner Alpha, Captain George, arrived from Skidegate Bay, Queen Charlotte Island, yesterday morning. She brings two white colliers from the Queen Charlotte Company's mine, 15 Hydah Indian passengers, and 500 gallons of oil for the Coal Company. The weather at the mine during the winter was severe and several heavy falls of snow occurred. Nine men remain to work the seam. The Alpha left here on the 16th March for Skidegate Bay with miners and provisions and experienced rough weather both ways. Four days ago, in Millbank Sound, she sighted the schooner Kate, bound north, and on the same day four inches of snow tell on the deck.

THE REGATTA-Messrs Thomas and Calicgham yesterday collected \$350 to assist in defraying the expenses of the regatta on the 24th. The steamer Emily Harris has been chartered, we learn, to run to the Gorge on that day, carrying passengers at 25 cents each, provided the draw of the second bridge can be opened. Over the Sound a great interest is manifested in the forthcoming celebration, and the steamer New World is advertised to make an extra trip for the purpose of bringing excursionists across, the steamer leaving Olympia at 7 o'clock on Thursday morning. Tickets for the round trip have been fixed at \$6, including meals and bed. About 300 of our American cousins are expected to avail themselves of this opportunity to visit us. It is suggested that some of the boats should start at the Gorge and run down the Arm, with the winning-post at Victoria. The suggestion is sensible and if adopted a great

deal more fun will be experienced, especially

by the rising generation. THE "TRICHIN & SENSATION REVIVED-The Springfield Republican (Mass.) a few days since published a detailed account of six ca es of trichina spiralis which occurred in that city. The same paper says the disease is not confined to the Ransley Hall family. A son of the late Joseph Solace is afflicted with it, as is also a Mr Norton, who lives in the same vicinity. Both of these persons have eaten ham obtained at the same store where the Halls purchased theirs. All of this family are now constrable except Mrs Hall, whose condition is yet extremely critical. As showing how enormous is the number of the trichine, it is estimated that those on the small piece of muscle taken from the limb of the deceased girl were distributed at the rate of 50,000 to 80,000 per quare inch. The number in the entire body nust consequently be many millions. A piece of the muscle has been sent to Prof. Agassiz.

HER MAJESTY'S TURRET SHIP " CAPTAIN." We (United Service Gazette) are glad to hear that the tender of Messrs Laird for the construction of this ship has been accepted, and they are to complete her in all respects, with the exception of guns and sea stores. Her general dimensions are-length 320 feet; breadth (extreme) 53 ft. 3 in.; draught of water, 23 feet. Her extreme speed is to be 141/2 knots; her propellers, twin screws. Armament, four 600-pounders in two turrets. and two heavy pivot guns on poop and forecastle. Armor on the turrets, 10 in., and on ship's side abreast of turret 8 in. She will have a hurricane deck extending fore and alt over the turrets, and be fully rigged. We have every hope that if Messrs Laird and Captain Coles are allowed to finish her without interference, she will realize all expectations, and be the finest man-of-war in the service.

WHISKEY SELLING TO A SAVAGE-Andrew Coyle, described by officers McMillan and Woolacott, who effected his-arrest, as a confirmed whiskey-seller, was arraigned before Mr Pemberton yesterday upon a charge of selling whiskey to an Indian. Coyle pleaded not guilty. When the charge had been established, he claimed that he had never before been guilty of a like offence.

The Magistrate-How does it happen, then, that your name appears on the record as having been guilty of selling liquor to an Indian on the 5th November last?

Prisoner-Oh-well-you see Judge, that was all a mistake. I wasn't guilty.

The innocent creature was fined \$100; in

default of payment or of sufficient goods and chattels to pay the fine, he was ordered to pass four months in the chaingang.

VICTORIA HOUSE-Just received at this Establishment by Express, the prettiest Bonnets and Hats ever imported into the colony and of the fashions now prevailing in Europe, the goods having only left England on the 17th March; also, the latest styles of Trimmings, Lace Shawls, Silk Mantles, Jackets, Brilliants, French Prints, and every description of Spring Goods.

NEW DIGGINGS-Several men were yesterday panning out the debris from the interior of the building lately occupied by the bank of British Columbia, to secure the gold dust wasted from time to time in handling. After panning out about two bushels of the debris tain any sort of craft, also started for the they had not far from \$5. We left ye honest miner vigorously panning for more-Orego. man,

In Town-Mr Legh Harnett, agent for the Pacific Coast Business Lirectory, arrived last evening from California. He brings a number of copies of the valuable work for which he is agent, and from a casual glance through its pages we pronounce it a success. The Directory cost the publisher nearly

THE Sacramento Union says that a regiment of soldiers is about to be sent North by the Government to raise the stars and stripes over our new territory and to hold ossession of it. General Steel, now of Fort Vancouver, will probably have command of the expedition.

No Quorum. - There was no quorum at the Council Chamber last evening. The City Fathers, when they had no a chance to effect some good, are exceedingly lax in their attendance.

PROSPECT LAKE TROUT-We have received from one of the successful parties of anglers at Prospect Lake a present of four magnificent trout, tributes to the skill of the gentlemen with the book and line. They are certainly splendid fellows-the fish as well as the donors.

POLITICAL feeling across the Sound runs high. Clark and Flanders, the rival candis dates for Congress are stamping the territory and sounding their own praises most energetically. Both are good speakers and draw" large audiences.

ONE PENNY, whose Christian name is Frederick, tried to pass current as a civilian; but his appearance stamped him as a counter feit, and he was seized by the police and paid away for what he is worth to the naval authorities.

SALE OF REAL ESTATE - Mr A. T. Elliott yesterday sold, by auction, a full-sized lot on Store street for \$1050.

cargoes of the only two vessels now on the way from England to this port-the barks Princess Royal and Aid-the former of which is now due here, and the latter in July-appear in our columns this morning.

MASONIC-The members of Victoria and Vancouver Lodges will proceed to Nanaimo to-day to inaugurate with proper ceremonies the new lodge at that place. They will return on Thursday evening.

THE ASTARTE-This ship was yesterday towed to Burrard Inlet by the Isabel, which steamer had on board a quantity of stores for the lumber mills at the Inlet.

THE Emily Harris has taken a contract for carrying 500 tons of coal from Nanaimo to Esquimalt for the use of H. M. ships stationed there.

THE NEW WORLD-This steamer reached her wharf shortly before 6 o'clock last evening, having on board 41 passengers and very large freight of live stock.

Purge out the Morbid Humors of the Blood, by a dose or two of AYER's Prlls, and you will have clearer heads as well as bodies.

do cool yourselves. Onow fell at St. Louis, Missouri, on the 7th

The Richest Man in the World.

The young Lord Belgrave, grandson of the Marquis of Westminster, if he lives to inherit his partimony, will be the richest man in the world. When what is now the fashionable section of London known as Belgravia was but a sheepfarm, the first Marquis was leasing lots at ninety-nine years. By the time the heir to the Westminster estates attains his majority all these leases will lapse, thereby adding an alm.st incomputable amount of ground-rent to the estate. The present income of the property is said to be £1000 a day; ten years hence, it will be ten or twenty times this amount! The present Marquis of Westminster is about seventy-two years of age. His eldest son, the Earl of Grosvenor, is about forty-seven; and his eldest son, the young Lord Belgrave, is about thirteen. By intermarriage this colossal fortune has not only been kept in the family, but multiplied in arithmetical ratio. The Marquis of Westminster married the Lady Elizabeth Mary Leveson Gower, second tains his majority all these leases will lanse Elizabeth Mary Leveson Gower, second daughter of the first Duke of Sutherland. Earl Grosvenor married Lady Constance

Leveson Gower, daughter of the second Duke Leveson Gower, daugnier of the second Duke of Sutherland. Rich as these people are, we do not suppose that either the Grosvenor sons or daughters will be likely to "marry for love," unless there is plenty of wealth to back it. At this rate of accumulation, how long the late of the Grosvenor family to monwill it take for the Grosvenor family to monopolize the wealth of London? This is a mere question of time and simple arithmetic. Any expert at figures can cypher it out. Perhaps this problem is aiready under discussion at the meetings of Bright, Beates & Co. The "roughs" are asked to look at the palaces and hovels of London; to contrast its princes and its paupors; to listen to the songs of revelry, and to suff the odours of feasts in the grand mansions of Belgravia, and also to listen to the groans of the starving thousands in the "poor districts." Property is sacred, they are told, and protected by all the majestic power of the law. But life is still more sacred, and "bread or blood" is to be the revolutionary battle cry of the mere question of time and simple arithmetic. life is still more sacred, and "bread or blood" is to be the revolutionary battle cry of the down-trodden millions! They are nightly inflamed with the idea that these rich and lazy nabobs, who do not know what to do with their money, are living and fattening at the expense of the poor, of the "working classes," of themselves, whose wives and little ones are famishing for food! They are told that no man ought to be allowed to pos-sess an unlimited estate—say one million as the maximum; and that any person having in his possession an excess of this very comfortable sum should be compelled to give it to the State on account of the national debt, or to the poor whose wants and woes weary the ear of heaven. These are the agrarian the ear of neaven. These are the agrarian doctrines beginning to be mooted by "Reform Leagues." They are radical and revolutionary in the extreme; but they are making rapid progress among the subterranean masses. They are the legitimate results of the "philosophy" of Bright, Mill, Beales and Co.; and they threaten to undermine the very foundations of Bright instingues.

do you like the picture? "My friend," said a doctor to his Irish patient, "be composed; we must all die once." "An' it's that vexes me," replied Pat. "If it were more than once, shure, I'd be alsy enough."

the very foundations of British institutions-

dynasty, government, society, religion, and all. Manhood suffrage, female suffrage—these are what the so-called "Retormers"

are clamoring for; but they mean revolution. They mean to Republicanize England; to revolutionize Ireland; to destroy the nobility;

A New and Grand Epoch in Medicine. A New and Grand Epoch in Medicine.—Dr. Maco R. is the founder of a new Medical system The quan intrins, whose vast internal doses enterbe the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary lins, and cores the most virulent sores with a box or so his wonderful and all healing Salve. These two great specifics of the Poctor are fast superseding all the stereotyped nostrum of the day. Extraordinary cures by Maggiel's l'ils and Salve have oened the eyes of the poblic to the inefficiency of the co-called premedies of others, and upon which people have so long bindif jeepended. Maggiel's l'ils are within the control of the co-called premedies of others, and upon which people have so long bindif jeepended. Maggiel's l'ils suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and brownther of the properties and render the spirits light and brownther and the heavy of Maggiel's lills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and brownther and if the nervous system is feeble, it is invigorated. This list quality makes the medicine very destrable for the wants of delicate females. Ulcerous and eruptive discusses are literally extinguished by the discusterable for the wants of delicate females. REFINING WORKS

No. 416 Montgomery Street,

(Successors to Kellogg, Hewston & Co.,)

CAPITAL STOCK, · · · · \$1,000,000.

Directors

THIS COMPANY HAVING GREATLY EN-

arged their Refining Works, and narrodood mysther important improvements, are pleased to amounce, that they feel warranted in again reducing materially, heir terms of doing business.

The Tariff of Charges

Which they now submit to the public-considered with reference to the cost of material and labor—is lower than an any other part of the world, and secures to the maining interest of this cost an important inc ease in both the mining and commercial value of bullion. Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One-eighth of one per cent (heretofore a quarter) for an amounts over \$1.690, and two dollars for an smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to \$1,600, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Colu or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce.

Gn bullion from 300 1/2 00000 parts gold, 4 cents per parts.

unce. On bullion from 600½@750 parts gold, 6 cents per

On bullion from 7501/2@9491/2 parts gold, 8 cents per

ounce.

Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dellars.

For Coining Gold.

This charge will be the same as at the mint—a half one per cent—and which is paid by us to that institution list there will be no charge in future for making fine gold or silver bars from builion refined by us.

Returns in Coin made in Forty-eight Hours.

Charges at U. S. Branch Mint.

For refining bullion from 300%@600 parts gold, 5 cents

per ounce. For retining bullion from 750%@850 parts gold,11 cents

per ounce.
For refining bullion from 850%@949% parts gold, 14

The charge for coinage is one-half of one per cent, and the charge for making fine sliver bars, the same. Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost 1½ of one per cent—they must be sold at the following par rates to equal one return which would have been made had they been posited for coinage; 830 par to equal Mint return, at refining charge of 14 cents.

845 par to equal Mint return, at refining charge of 11

cents, at 865 par to equal San Francisco A. & R. Works return retining charge of 8 cents. m18, 2p3m

Scrofula, or King's Evil.

scrofula, or king's Evil.

Is constitutional discusse, a corruption of the blood, by when this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubereles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions

surface, eruptions or sores. This foul corup-tion, which genders in the blood, depresses the energies of life, so that serofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks

of other diseases: consequently, vast numbers perish by disorders which, although not scrofu-lous in their nature are still rendered fatal by

lous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scroitous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse if from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Ekuptive and Skin Diseases, St. Anthony's Pirk, Rose, or Ekystepes, and Boils, Tumors, Tetters, and Salte Rheeus, Scald Head, Ringworm, Shlains and Boils, Tumors, Tetters, and Salte Rheeus, Scald Head, Ringworm, Rheeushatism, Symillific and Mercurial Diseases, Drofsy, Dyspersia, Debility, and, indeed, all Complains a shising from Vittaged or Impurity of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without w'th sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical depility is astonished to find his health or energy restored by a remedy at once so simple and luyting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae, containing certificates of their cures, and directions for their use in the following complaints: Costiveness, Heardwan, Headache arising from a disordered Shomach, Nausca, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatutency, Loss of Appetic, Januatice, and othe kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE BAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consump-

tion, and for the relief of Consumptive

Patients in advanced stages of the dis-

So wide is the field of its usefulness, and so

So wide is the field of its usefulness, and so manerous are the cases of its cures, that almost every section of coaftry abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have falled and been discarded, this has gained friends by every trial, conferred benefits on the affilied they can never forget, and produced cures too numerous and too remarkable to be forgotten.

FRENCH MEDICINES IN VOGUE.

BY GRIMAULT & CO.,

Chemist to H. I. H. Prince, Napoleon,

49 RUE RICHELIEU, PARIS.

NO MORE COD LIVER O

GRIMAULT'S SYRUP OF LODIZED HORSH RADISH

The syrup is employed with the greatest success, in place of Lost Laver oil, to which it is infinitely superior to core discusses of the chest, serolong, purphase disorders, green sickness, muscular actors and uses oil appetite. If regenerates the constitution by puritying the blood, and is, in a word, the most powerful departure through the most powerful departure known. If Invertangues the atomach and bowls, and I attendanted to number or obstruction of the gland. At last, it is very efficacions in the discusses of the skin.

GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME.

This now medicine is a sovereign remedy in pitchist at sort diseases of the lungs, promptly removes all the most serious symptoms. The cough is relieved; the night sweats cease, and the patient rapidly recovers health.

No More Poverty of the Blood and Pale Complexion,

DRS LERA'S PHOSPHATE OF IRON.

This new ferruginous medicine contains the element of the blood and bones, and from in a liquid state. It

of the blood and bones, and from it is havid state. It is different from all bitherto opered to the public, is liquid colorless and tasteless. It specific arres characts, pain in the stomach, difficult digestion, dysmenorrhom and

amenia.

The majority of the Academics of Medicine of Paris recommend the Phosphate of Iron to haves of delicate constitution suffering from anoma, and other para as it igned from over mankety, nervous emptides, over work, general dechifty and pootness of blood.

It is the only preparation which never causes constitution and can be borne by the most delicate stomachs.

Nervous Hendaches and Neuralgias

Instantaneously cured by

GRIMAULT'S BRAZILIAN GUERANA.

A vegetable substance, used from time immemorial in Brazil, and entirely inclientive.

Better than Copabia

GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS

Where all other preparations have failed, these pre-parations will always effects cure. These insure rapid and extraordinary core of severe recent and chronic cases of privite discusses. They are near in the biopi-dals of Paris, by the celebrated by Ric, rd, and are found greatly superior to an interest known mineral remedies and copatha and cubebs. The injection is used in recent and capables in more chronic cases:

CURES AND COMFORT FOR

-BY -

Holloway's Cintment.

"This wonderful" Ointment acts like magic in relieving and curing old sores, wounds, bad legs, nicers and cruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerne the most wholesome influence over the internal "tructurets."

Gout and Rheumatism.

To sufferers from the racking panes of a neumatism and Guit Lissontiment will prove invaluable. After formentation with warm water the southing action of this Ohit ment is most remarkable; it seems at once to lesson in liamation, eace pain, recuive the swelling, restore natural circulation, and explain the disease. For the above complaints Holloway's dimment and Pilis are initialible specialists.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

his class of diseases may be cured by well rubbing it.
Ointment, three times a day, upon, the throat, chest and
back of the patient. It will see, give tratectate and remediate relief. In all stages of Indicate, to the and
Brocchitis, this treatment may be followed with efficiency
and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Omitment is a certain cure for Rice worm, Scurvy Scrotcle or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be tre-ted with a saiser or more speedy remed v than Holloway. Olimnent, assisted by his celebrated Phila, which act. a powerfully on the constitution and so pair fy the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

. I seware of this dangerous and stealthy complain

Noware of this dangerous and steatiny complishes which frequently creeps upon as by slight sequentishness or trifling jaundice, of which little or no notice is taken until theigs begin to swell. The cause of the evil rust be looked for in the liver and stomace, therefore set to work earnestly by saking Holloway's famous Pills according to the printed instructions and rubbing the Oint ment very effectively over the pit of the Stomach and right side where those organs lie. Most dropsucal cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflat dation.

These complaints are most distressing to both body nd mind, take distinct co-cooling them from the know dge of the most fraintste friends. Persons suffer for ears from 7:08 and similar complaints when they might set followay's but neat with listant relief, and effect heir own a rew which the tannoyance of explaining their ailment to anyone

Disorders of the Widneys, Stone and Gravel.

Are immediately relieved and ultimately corred if this Jintnent be well rubbed twice a day, all the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give imme-diate reliet; but perseverance will be necessary to effect a to rough cure.

Both the Ointmentand Pills should be used in the fol;

ings, Lumbago,

Corns, (Soft) theumatism, Soid at the establishment of PROFESSOR HOLLOWAY 444 Strand, (near Temple Bur.) London; and by all respectable Druggists and Dealer's in Metheines throughout the civilized world, at the following prices; 1s 1½d, 2s 0d, 4s 6d, 1la, 22s, and 33s cach Pot.
